

**MEDICAL,
DENTAL AND
PROTECTIVE DEVICES**

MORE THAN 30 YEARS OF
SUCCESS

"9. SEPTEMBAR MEDICAL" is a privately-owned company, established on 9th September 1982. For more than 30 years, the company has maintained successful production of medical, dental and cosmetics consumables in accordance with ISO quality standards and the governing European legislation in the area of medical products manufacture. Responding to the quality-sensitive markets, the company's products have found their way to a number of international markets in Europe, Asia, Africa, South and North America, making its exporting sector the dominant segment in the company structure. However, despite the fact that we export our products to over 50 countries worldwide, we invest considerable efforts to make a major impact at the local market as well.

Our staff are focused on constant self-improvement, and our employees are loyal and trained for the highest-standards production; our management is motivated and committed to the satisfaction of the users of our products.

We are proud to have sustained our focus on the quality and highest-level European standards production all through the years of the severe economic crises.
